

The Future of Law

Legal Expert Predictions on the Evolution of AI, Crypto, & Beyond

By Charles L. Slamowitz, Esq.

ABOUT THE SPEAKER

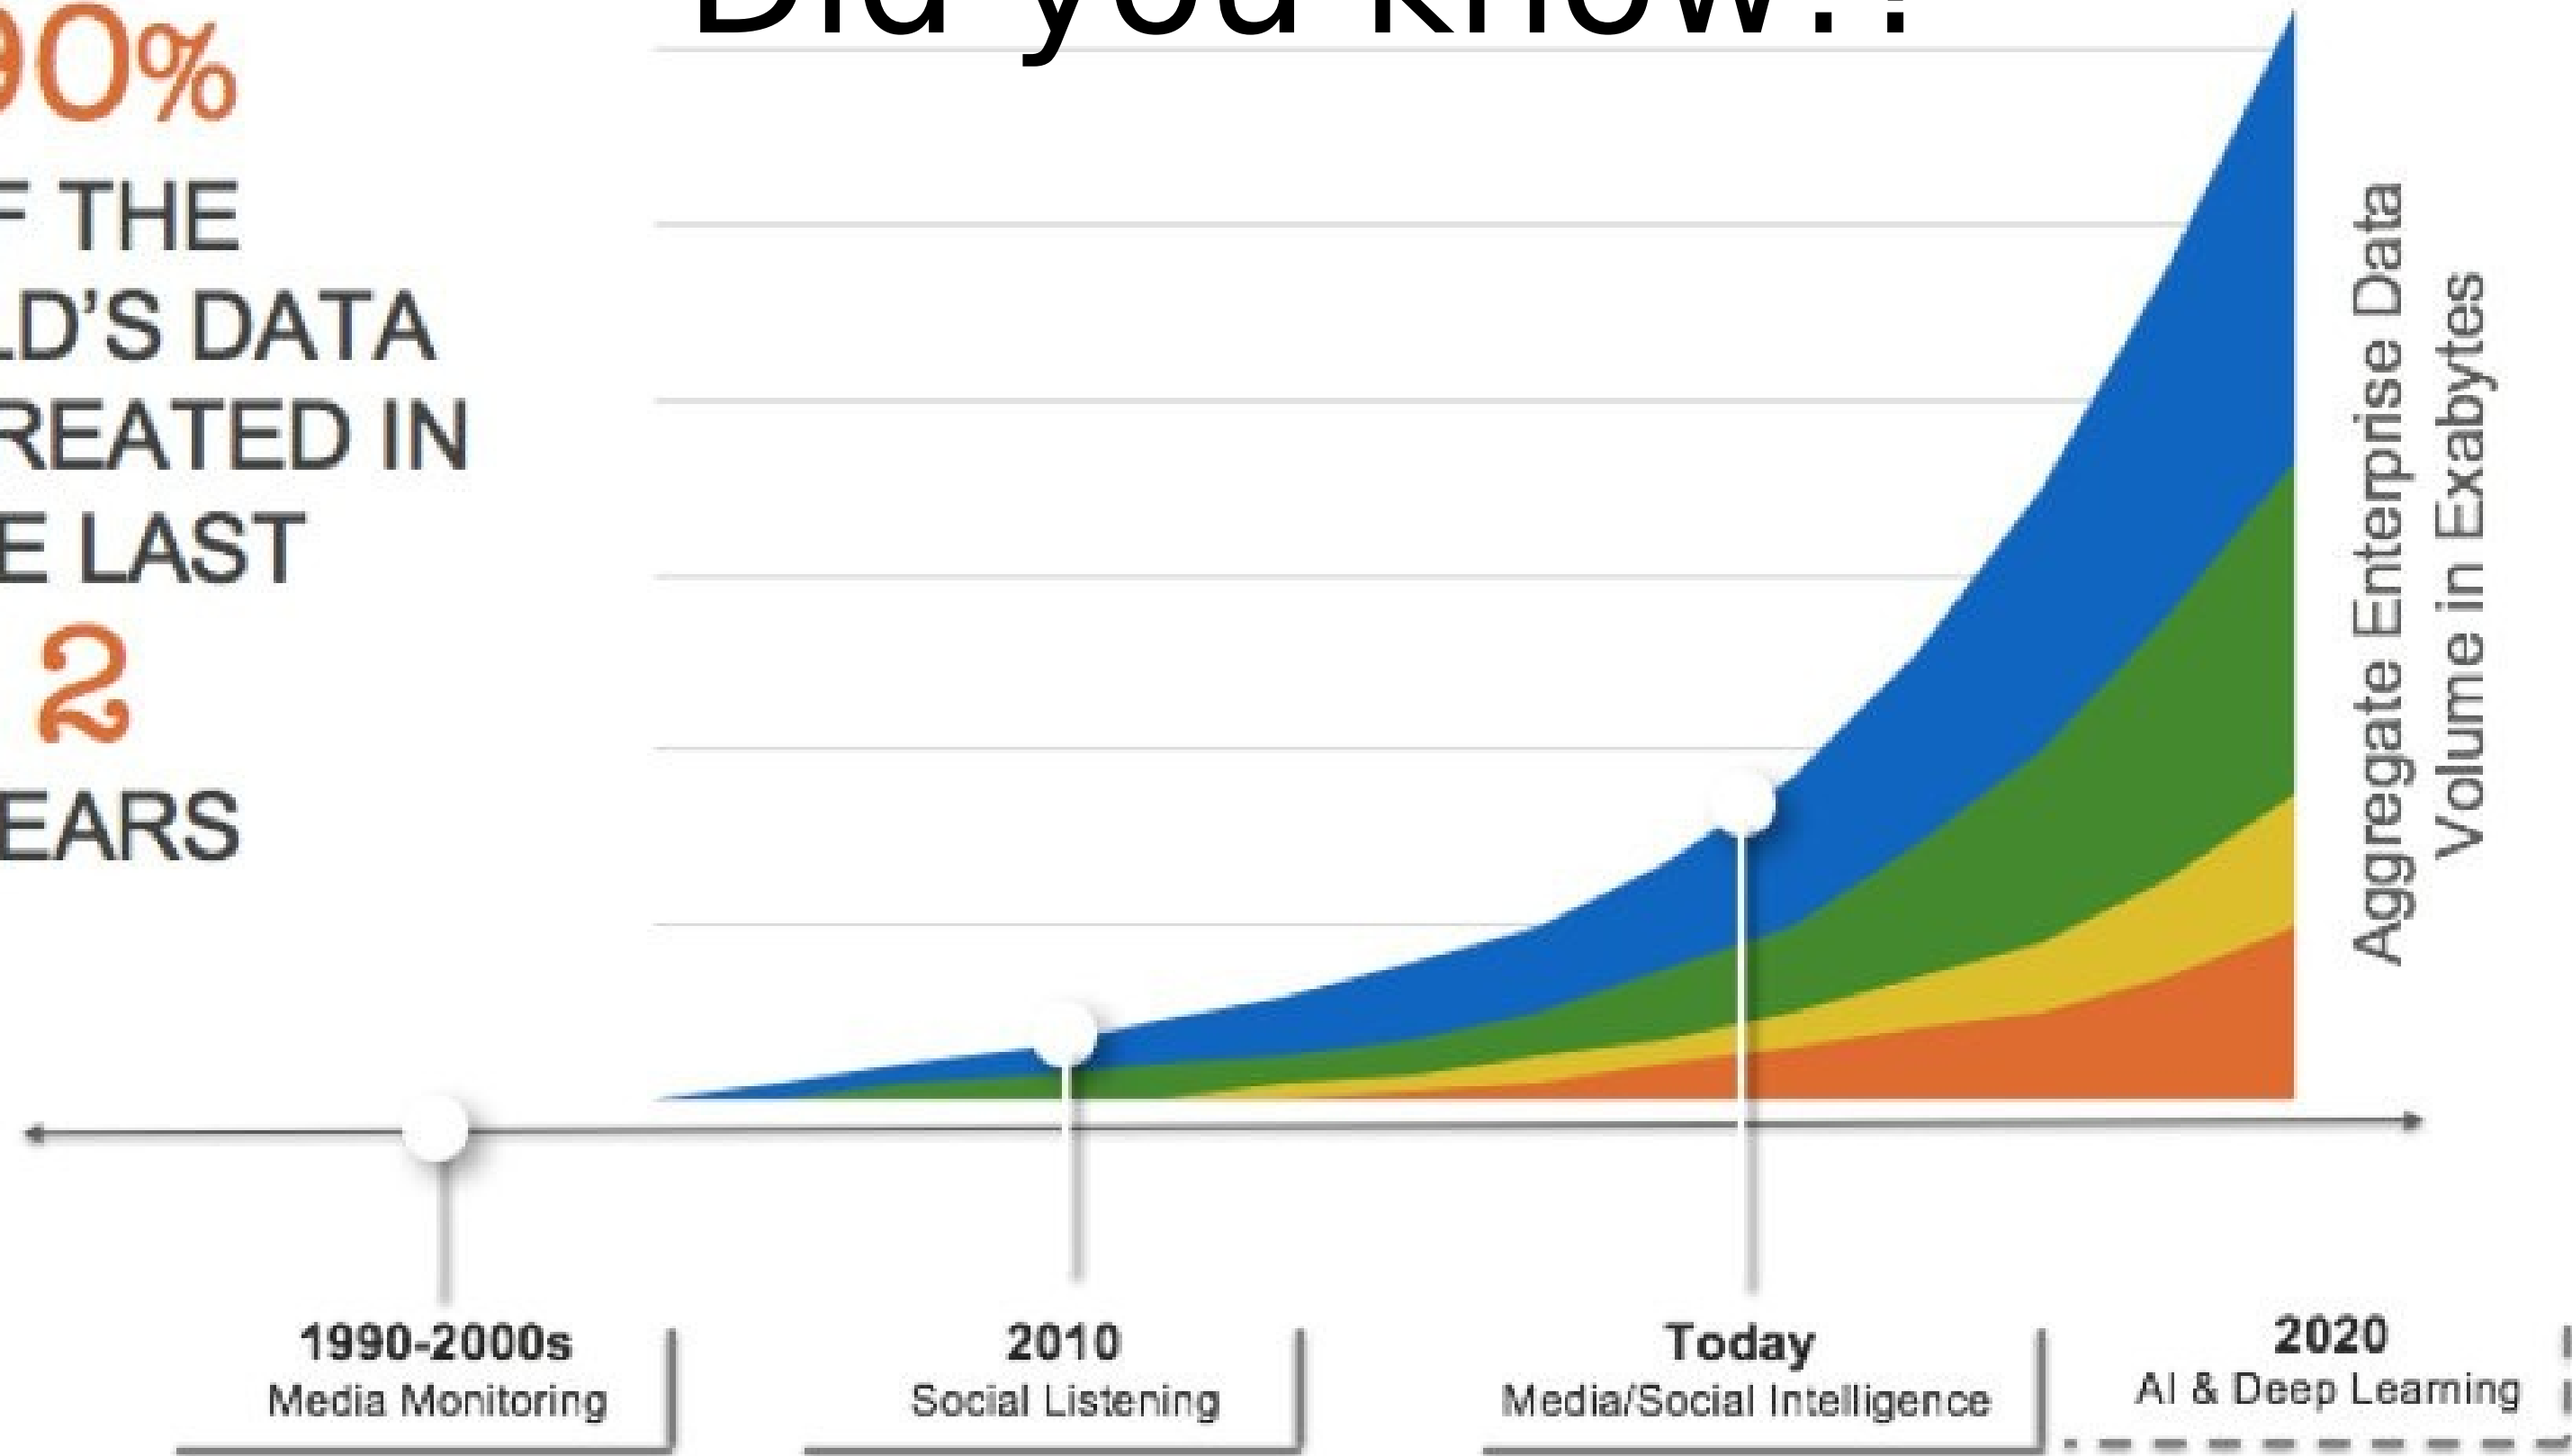

Charles L. Slamowitz, Esq.

Charles L. Slamowitz is a renowned leader and trailblazer in the disciplines of AI, Web3, and sustainable technologies. With an illustrious legal career, Charles' journey began by selling two tech startups and realizing the gap between the complexities of emerging tech and the lack of true legal expertise in existence.

Mr. Slamowitz has provided counsel to over 150 projects, navigating the intricate realms of compliance, transactions, and litigation. His diverse roster of clients includes high-profile entities such as Alfa Romeo Formula One, Call of Duty, the U.S. Olympics, the New York Mets, and Snoop Dogg, underlining his expertise in handling a wide array of legal challenges.

Did you know!?

90%
OF THE
WORLD'S DATA
WAS CREATED IN
THE LAST
2
YEARS

Source: IBM

More data!

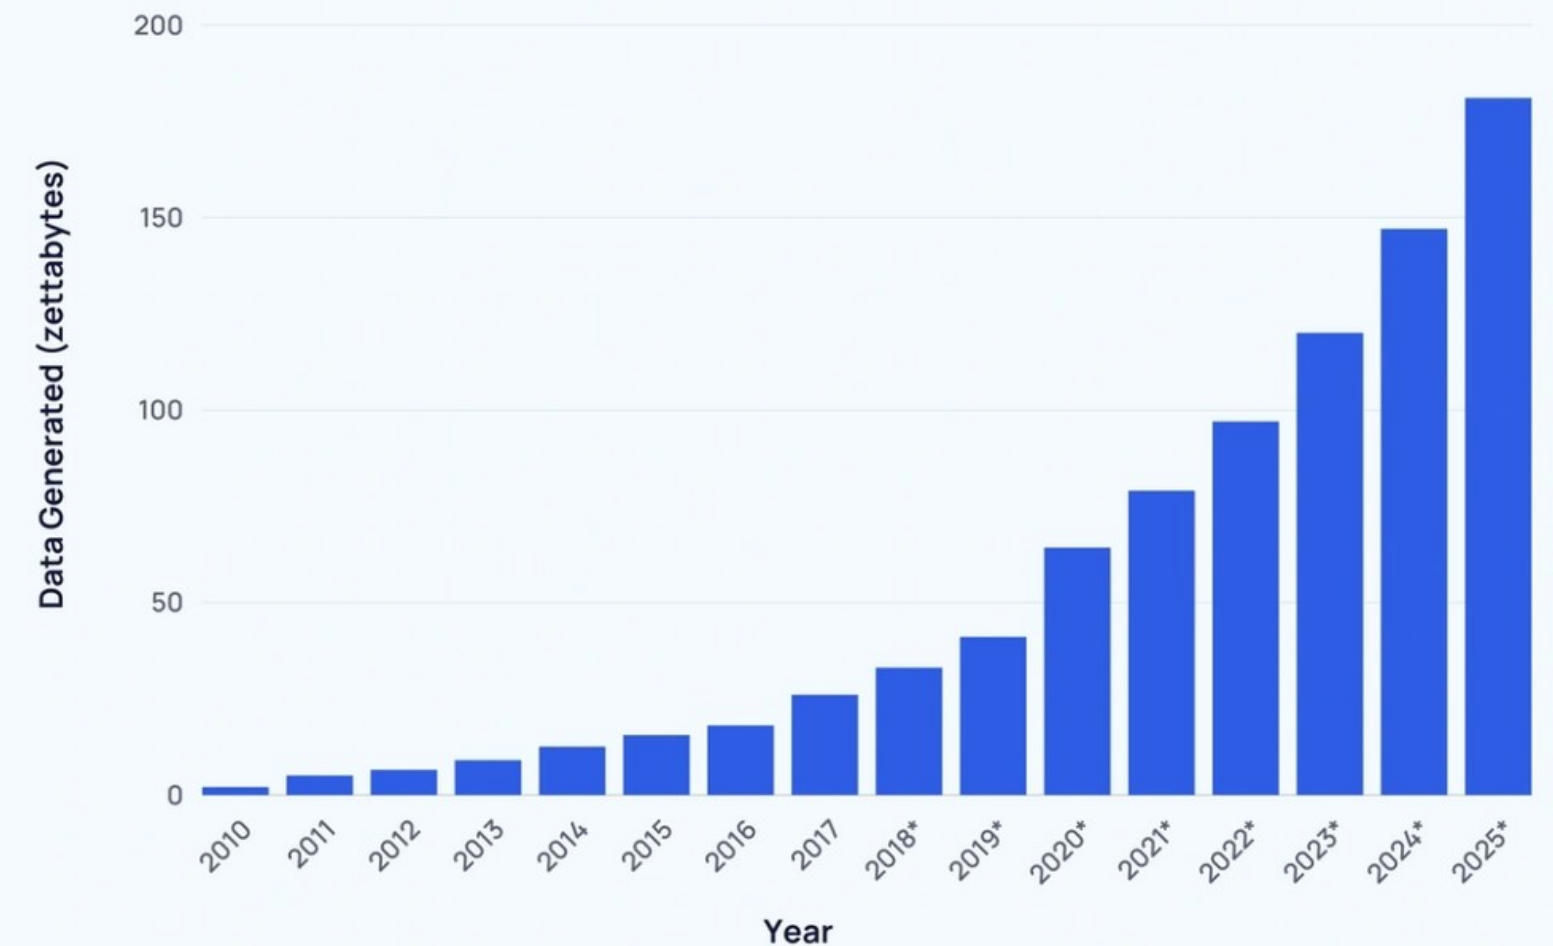

According to the latest estimates, **328.77 million terabytes of data are created each day**

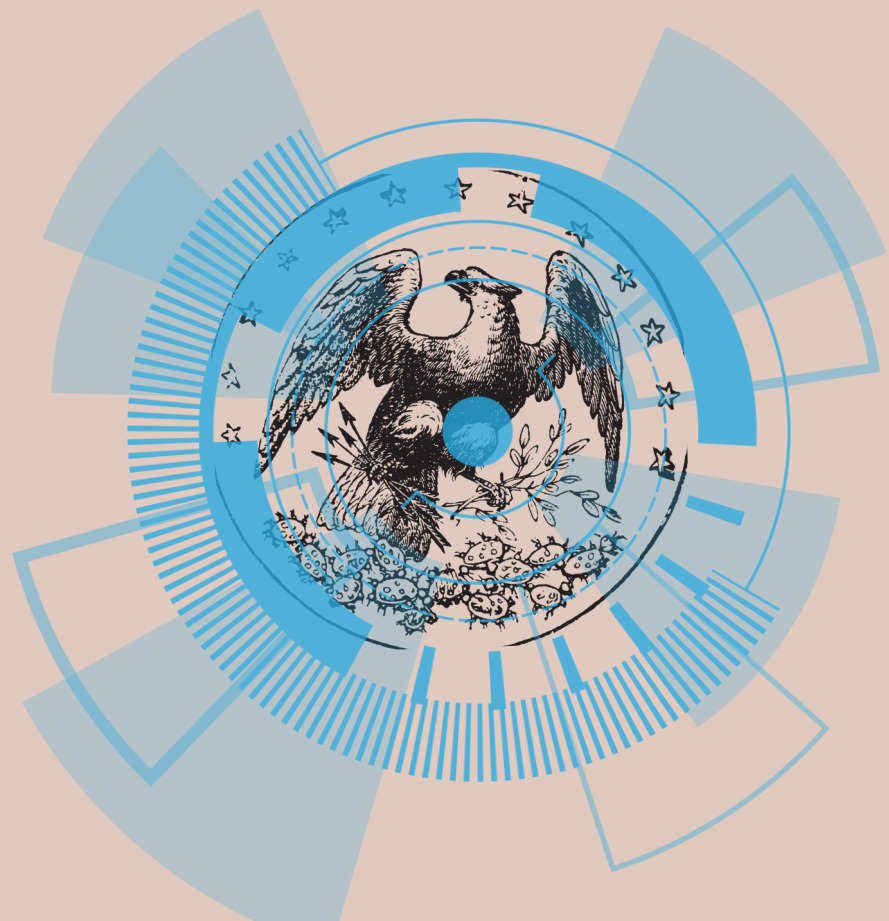

(“Created” includes data that is newly generated, captured, copied, or consumed).

The **120 zettabytes** generated in 2023 are expected to increase by **over 150%** in 2025, hitting **181 zettabytes**.

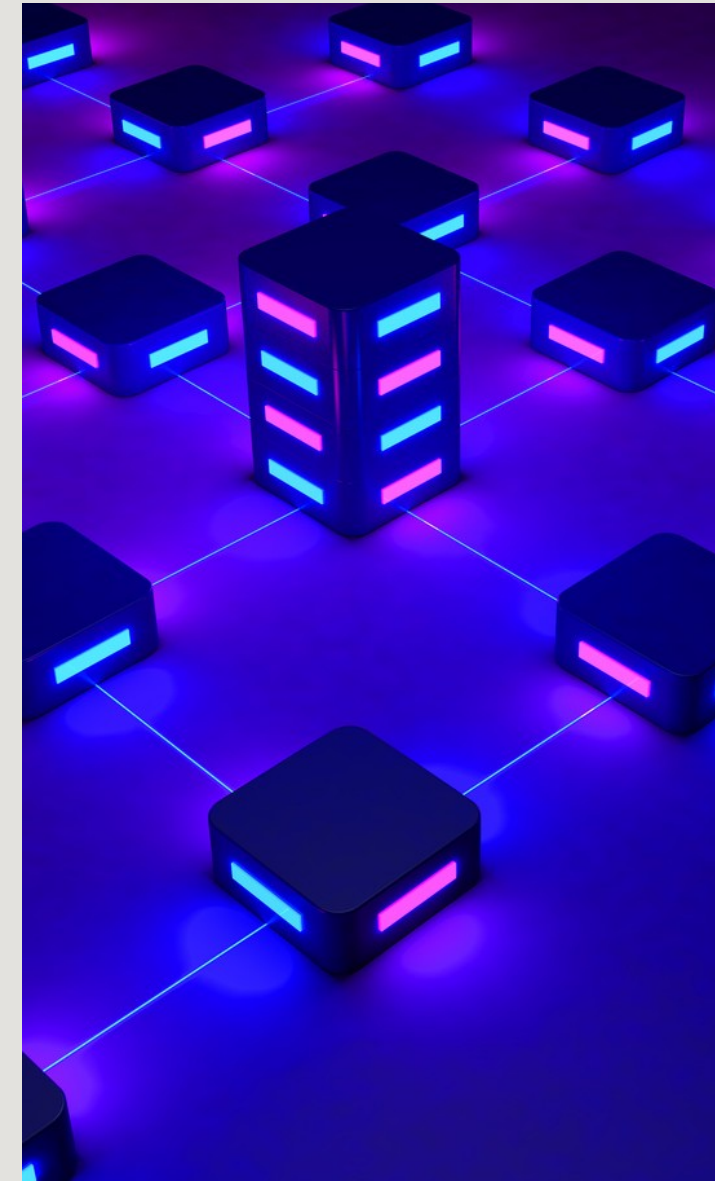

Global Data Generated Annually

Our U.S. Founding Fathers Never Predicted the Internet, AI, Blockchain, & Other Material Technologies That Affect Everyday Modern Life.

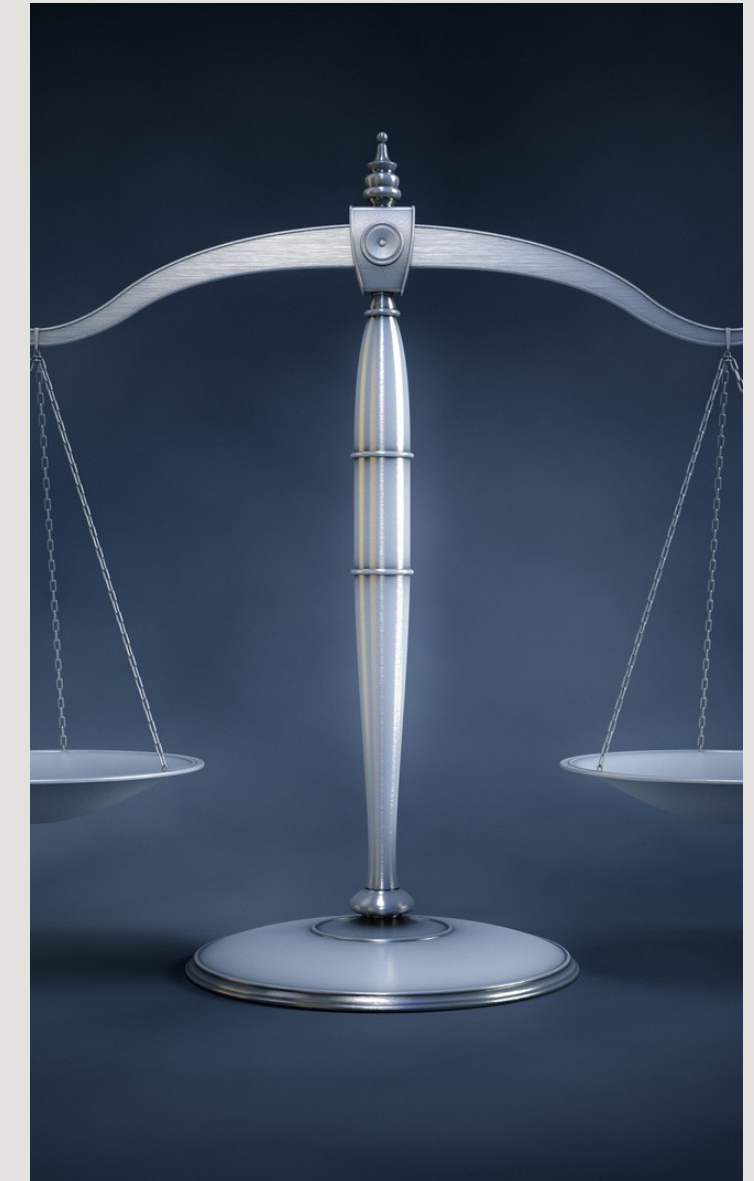

New technologies
are advancing
exponentially,
at a rate never
seen before!

Artificial Intelligence

AI's ability to learn and improve
could automate many legal
tasks and improve accuracy.

Blockchain Advancements

Blockchain's immutable ledger
could change the way legal
contracts are made and
enforced.

AI & Blockchain Mass Adoption

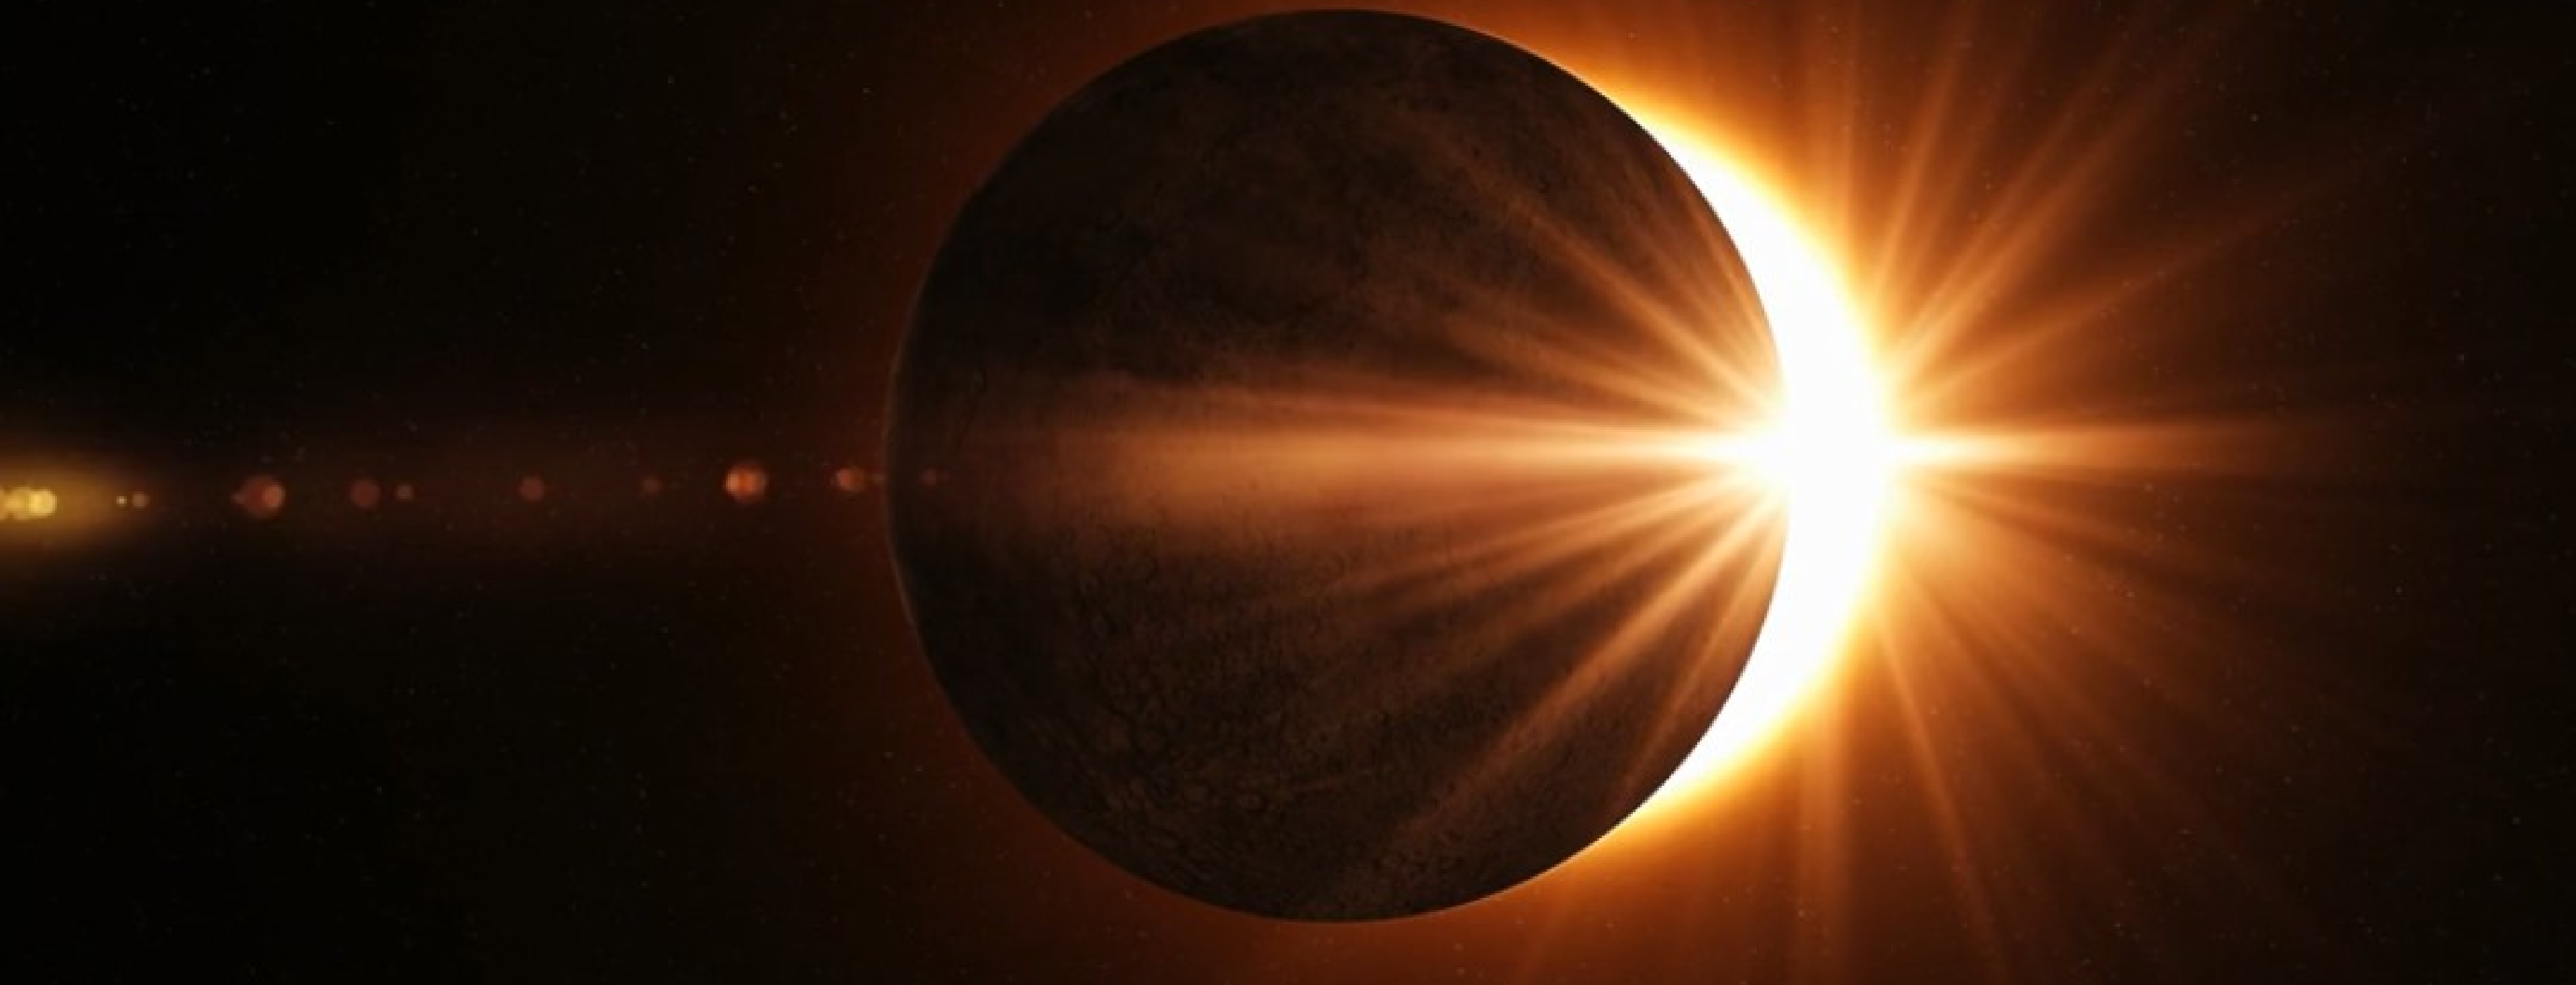

As AI & Blockchain become more mainstream, interactivities with the U.S. legal practice are expected to become inevitable.

With fresh advances of novel tech modalities, evolving at unprecedented speeds, can U.S. laws truly keep up?

Spoiler alert: not completely!

As a social construct, law will continue to require adaption, and unprecedented flexibility in our ever-evolving digital age.

THANK YOU.
